Message from the Guest Editors

Dear Colleagues,

Sustainable urbanization and urban growth have become issues of high importance on the international research and policy agendas (e.g., SDG 11). This Special Issue aims to document and explore how urbanization in rural regions ('rural urbanization') of Africa and Asia progress, and to examine how small urban centers can support sustainable development.

Papers could focus on one or more of the following topics:

(1) multilocal livelihood strategies and the role of urban migrants/sojourners; (2) rural transformations, where dynamics in agricultural economies are nurtured by the provision services in local towns; (3) small towns as places of attraction for aspiring urbanites and/or for households and individuals seeking access to services and security; and (4) small towns as locations for climate change adaptation of rural households affected by environmental unpredictability and hazards. These topics are not exclusive, though, and contributions might be either empirically or conceptually founded.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
